REMARKS

The Examiner is thanked for the thorough examination of the present application, and for the courtesies extended to the undersigned attorney during the telephonic interview on May 1, 2007. During the interview, the rejection of Claims 13 and 33 was discussed, and the undersigned proposed amending these claims as set forth above to more clearly define the subject matter thereof over the prior art. The Examiner concurred that with these changes, Claims 13 and 33 would be allowable. No new matter is being added.

In view of the amendments to the claims, it is submitted that all the claims are patentable. Accordingly, a Notice of Allowance is requested in due course. Should any minor informalities need to be addressed, the Examiner is encouraged to contact the undersigned attorney at the telephone number listed below.
